### Black for Fat Women. Black makes a fat woman look slender;

It is the thinnest color a fat woman can wear. It also makes a person look old. It is the worst color an ageim woman can wear. When a kindly disposed employment agent is anxious to place a young nurse girl in a responsible position she always tells her to get black dress, knowing that it will make sixteen appear twenty-six. In the religious orders of the different

churches the black uniform is adopted, not for economy, but to protect the gentle nuns and novices from admiration. There is no color so generally levelling and unbecoming as black. Black is aweinspiring. Black is also depressing; it has a disagreeable effect upon men and animals. Dogs and babies will make friends more readily with brightly

### The Three-Flounce Skirt. A fashionable skirt is the one with

three flounces. The foundation skirt is closely gored and covered with flounces. The two upper ones are nearly equal in width, the lower flounce is wider and samewhat deeper, and instead of being cut in flat, circular form, and put or without gathers, as they have of late been adjusted on Empire gowns, the flounces are gathered and put on full The top flounce is set into the walstband and one flounce laps considerably over the other, wholly concealing the underskirt. All three are bordered, silk ruches, bias bands, velvet ribbon and braid being variously used as a lyimming.
